Phone: 732-500-2147 | Email: [emsudhanshu@gmail.com](mailto:emsudhanshu@gmail.com) | LinkedIn: [linkedin.com/in/sudhanshu-kakkar](https://www.linkedin.com/in/sudhanshu-kakkar)

Portfolio: <https://emsudhanshu.github.io/portfolio/>

## PROFESSIONAL SUMMARY

---

**Software Development professional** with **5+ years** of experience in Full Stack roles, and advanced expertise in **AI, ML, Deep Learning**, and **Agentic AI**, currently pursuing a Master's degree at Stevens Institute of Technology.

## TECHNICAL PROFICIENCY

---

- **Machine Learning:** Python, BERT Fine-Tuning, NLP, Text Classification, HuggingFace Transformers, TensorFlow, scikit-learn
- **Frontend:** HTML, CSS, JavaScript, Bootstrap, Material UI, React, React Native, Redux Toolkit, Micro-Frontends
- **Backend:** Node.js, Java Spring Boot, Microservices
- **Cloud & Automation:** AWS, CI/CD, Infra as Code
- **Agentic AI:** CrewAI, LangChain
- **RAG Stack:** LlamaIndex orchestration, llama3 LLM, all-minilm embedding model, Vectorization
- **Database:** PostgreSQL, MongoDB
- **Build Tools:** Maven, NPM
- **Agile Methodologies:** Scrum, Sprint Planning, Retrospectives
- **Project Management:** Jira

## RELEVANT EXPERIENCE

---

### STEVENS INSTITUTE OF TECHNOLOGY - Hoboken, United States

---

#### Research Assistant – AI and ML

May 2025 –Present

- Extending my existing multi-class depression detection project with a custom non-pretrained ML model.
- Researching model architectures to classify depression levels from text.
- Evaluating performance to improve prediction reliability.

### ONCREF- India

---

#### AI Engineer and Developer

Jun 2025 – July 2025

- Enhanced existing web application to improve UI, usability, performance, and user experience
- Collaborated on building a feature that leveraged agentic AI (Crew AI) to automate web scraping, convert unstructured data into structured formats, and enrich it through LLM calls for generating actionable insights.

### FIDELITY INFORMATION SERVICES INDIA PRIVATE LTD (FIS) - Bengaluru, India

---

#### Full Stack Developer - Senior Software Development Engineer

Jun 2024 – Jan 2025

- Developed a standalone payment gateway application using React JS processing **400 transactions** daily.
- Developed a standalone application 15G/H submission and download using React JS and Java Spring Boot Microservices.
- Automated the build generation and obfuscation process using Node.js, saving **2 working hours** daily.
- Drove architectural enhancements like code structuring, optimization, and obfuscation that achieved an excellent AppSec security score of **94%**.
- Accelerated development workflows by creating boilerplate code generation scripts that saved developers an estimated **15 minutes** per module.
- Took ownership of product development, lead a team of **5** developers, mentored them and delegated tasks.
- Enforced code quality and consistency by conducting weekly code reviews and practicing pair programming, reducing the deployment defect rate by **20%**.

#### Full Stack Developer – Software Development Engineer II

Aug 2023 – May 2024

- Worked on the development of backend Microservices using Java Spring Boot framework and PostgreSQL database, contributing to a system running **15+ services**.
- Drove a **50% improvement** in front-end development speed by recommending and implementing Micro-Frontends and React Toolkit, allowing parallel, independent deployment of UI features.
- End-to-end delivered and maintained **6+ critical net banking modules** like Profile, Accounts, Payee Management, Alerts Management, Fund Transfers etc. by developing required UI and APIs.

## FIDELITY INFORMATION SERVICES INDIA PRIVATE LTD (FIS) - Bengaluru, India

### Front End Developer – Software Development Engineer II

Nov 2021 – July 2023

- Developed complex Internet Banking UI using React, Redux, and Material UI, achieving a **50% reduction** in page load time compared to traditional Vanilla JS implementations.
- Designed and implemented **50+ reusable** React components, leading to **100% faster** module assembly and enforcing design consistency across the application.
- Utilized Git and GitHub for version control and collaboration with team members.
- Embraced Agile methodologies like Scrum to ensure high-quality software delivery.

## TATA CONSULTANCY SERVICES LIMITED – Indore, India

### Front End Developer - System Engineer

Aug 2019 – Nov 2021

- Utilized React Native, Redux, and Material UI to develop a logistics mobile application for multiple platforms.
- Worked closely with the product team to plan, design, and implement new features and functionalities.
- Performed testing, debugging, and optimization to ensure the mobile app's optimal performance.
- Deployed and maintained the app on various platforms.
- Resolved over **200 defects** and functionality issues reported by the QA team, directly improving the logistics app's stability and user experience.
- Conducted weekly demonstrations to showcase the app's progress and gather feedback from stakeholders.

## EDUCATION

- **Master's Degree - Applied Artificial Intelligence** 2025 – 2026(Expected)  
Stevens Institute of Technology, New Jersey, United States
- **Bachelor's Degree - Computer Science Engineering - CGPA – 8.4** 2015 – 2019  
HMRITM, Guru Gobind Singh Indraprastha University, Delhi, India

## RELEVANT COURSEWORK

Applied Machine Learning, Probability and Stochastic Processes, Deep Learning, Big Data, Pattern Recognition

## PROJECTS

- **AI Resume Chatbot Twin using RAG Stack** Sept 2025  
AI chatbot that utilizes the Llama 3 model and resume data to chat with recruiters and answer job specific questions on the candidate's behalf
- **Multi-Class Depression Detection Using BERT** May 2025  
Machine learning-based web application to identify levels of depression based on user-generated text inputs.
- **Dynamic Attendance Manager** Feb 2019  
The project allows the institutions to record and view attendance records effectively.
- **Ultrasonic Radar** Jul 2016  
Ultrasonic Radar interfaced with Arduino Uno Board and output visualization using Processing IDE

## CERTIFICATIONS AND TRAININGS

- **AI CODING AGENTS WITH GITHUB COPILOT AND CURSOR** Jul 2025  
*LinkedIn Learning*
- **GENERATIVE AI: WORKING WITH LARGE LANGUAGE MODELS** Jun 2025  
*LinkedIn Learning*
- **JAVA SCRIPT MAPS AND SETS** Jun 2022  
*LinkedIn Learning*
- **MEAN STACK** Mar 2018 - Apr 2018  
*Brain Mentors Pvt. Ltd.*
- **EMBEDDED SYSTEMS USING ARDUINO** Jun 2016 - Jul 2016  
*Delhi Technological University*
